Greenhouses - Statues & Plants Pots - Pebbles Garden Furniture  
- Canopies & Fabrics.

### Water Features...

Ornamental Water Features - Bird Baths.

\*A small amount entering pond water will not harm fish or plant life; however, care should be taken to keep run-off to a minimum when working around ponds.

### Kennels...Stables...Farmyards...

### Sports & Public Areas...

Astroturf or similar - All Weather Tennis Courts  
Access Ramps - Car Parks - Hard Play Areas.

**SAFE FOR PETS - SAFE AROUND PONDS\***  
**SAFE FOR WILDLIFE**

**Algon is available in 2.5ltr & 20ltr concentrate bottles and a 5ltr ready-to-use bottle with optional re-usable trigger sprayer**

### **When to apply?**

Any time of year. For best results, apply in dry conditions.

### **How to apply?**

For best results choose a day when the surface to be treated is dry and rain is not expected. Dilute 1 part Algon to 3 parts water. Apply with either a garden sprayer on droplet setting, soft broom or paintbrush, wetting the surface evenly. N.B. A watering can may be used but can be wasteful. Leave to dry; results will show in a few days.

### **Do I rinse it off later?**

Absolutely no need.

### **What are the results?**

The surface should start to clear within a few days, helping to restore the natural colour.

### **How long will the treatment last?**

Approximately one year. This depends on the absorbency of the material being treated; its location and the weather conditions.

## **Caution...**

Algon will have a scorching effect on foliage and grass where it makes contact; roots should not suffer from incidental run-off during application.

Algon is not recommended on marble and unfinished steel/iron or zinc based metals.

### **What about my pets, pond fish and wildlife?**

Algon is safe for pets, safe for wildlife and safe around ponds. A small amount entering pond water will not harm fish or plant life; however, care should be taken to keep run-off to a minimum when working around ponds.

### **What about plants?**

Algon will scorch foliage where it makes contact. Small amounts of run off should not harm roots.

### **Can I use Algon for water features?**

Yes but care should be taken to keep run-off into water to a minimum.

### **Storage?**

Algon has a shelf life of many years.

### **Can I paint over Algon?**

Yes. Algon will not affect any type of paint or stain.

### **What area will it cover?**

2.5ltr container – 60 m<sup>2</sup> approx  
20ltr drum - 480 m<sup>2</sup> approx  
5lt (ready to use) – 50 m<sup>2</sup> approx
